# Meeting #1: Introduction

Project Summary

- Machine learning with CNNs on different real estate datasets.

- Transfer learning on weights trained on initial dataset.

- Creation of pipeline for efficient training/testing.

- 2-4 hours/week: 2 hrs of a group meeting. 0-2 of personal coding.

- Estimated timeline: 2-3 months.

Project Flowchart

Things to Note Over the Coming Weeks

1. Meeting Time for Weekends (12-2 on Saturday good?)

2. Google Cloud (sign up for free trial/upgrade that trial)

3. Github (all will be sent invites in coming weeks)

4. Think about whether you would like to work on Step 1 or 2.
